COMPUTER SCIENCE INDUSTRY SEMINAR SERIES 2023

TechTalk With BSG

26 APRIL 2023

12H00 - 13H00

Ryan Julyan & **Mark Durrheim**

Job Title: Developers
Topic: Introduction to Git and GitHub
Synopsis: Git is a part of almost every developer's life once they start working. This presentation will introduce both Git and GitHub. Ryan will talk about his experience learning Git and how he learned git as a result of being held at gunpoint.

Ivhani Maselesele

Job Title: Senior Developer
Topic: BSG Recruitment Student Opportunities
Synopsis: BSG is a proudly homegrown South African consulting and technology company. Our purpose is being a proactive force for positive change. The center of our 'difference' is our people. Our selection process is a two-way conversation. We'll also discuss our Bootcamp and how we support transitioning from being a student to being a developer in the working world.

Mthobisi Kunene

Job Title: Developer
Topic: UKZN Alumni
Synopsis: Here we will discuss the experience of transitioning from student life to entering the working world.
